24 June 2020

Dear Parents/Caregivers,

## **Year 12 Study Skills Video Series and Resources**

To assist your son with his study and examination skills in order to prepare him for the upcoming HSC Trial Exams and HSC Exams, the College has organised for your son to access study skills videos and resources. Dr Prue Salter of Enhanced Learning Educational Services ([www.enhanced-learning.net](http://www.enhanced-learning.net)) has adjusted her usual mode of delivery from face to face presentations to a series of videos and resources for Year 12 students.

ELES is an Australian business based in Sydney, committed to helping all students improve their ability to learn and study. With over 20 years' experience in High School Education, Dr Salter's research into how students can unlock the power of their minds translates into informative, entertaining and action-oriented sessions for the students.

The Year 12 study skills videos build on the work already done with the students in Year 11 at her Study Skills Seminar in March 2019.

The 6 short videos cover:

1. What students should ensure they do before the end of Term 2. (Use the checklist provided.)
2. Using research about the brain to help plan holiday study time. (Grids and planners for the holidays provided.)
3. Common study mistakes and how to avoid them.
4. Extra memorisation tips.
5. Moving results to the next level.
6. What to do in Term 3 before the exams.

We encourage all students to take advantage of this support and Dr Salter's offer to give feedback to students on their study plans.

After the HSC Trials, we are hoping to run a face to face session with Dr Salter to help students plan for the HSC however, if that is unable to go ahead, we will provide another video series instead to show your son how to plan through to their final HSC exam.

## **Access to the Study Skills Videos and Resources**
